ORBIT INTERNATIONAL'S POWER GROUP RECEIVES FOLLOW-ON PRODUCTION ORDER VALUED AT APPROXIMATELY \$460,000 IN SUPPORT OF OIL AND GAS SERVICES INDUSTRY

Anticipates Follow-On Orders in 2011 and Future Years

Hauppauge, New York, April 28, 2010 - Orbit International Corp. (NASDAQ:ORBT), a defense and industrial electronics manufacturer, systems integrator and software solution provider, today announced that its Power Group, Behlman Electronics, Inc. ("Behlman"), has received a follow-on production order for a power supply used in the oil and gas services industry valued at approximately \$460,000. Deliveries under this contract are expected in the fourth quarter of 2010.

In January 2010, after a year of successful field testing, Behlman received an initial production order of approximately \$150,000 for three power supplies which included updating the current design to include CE Marking certification, thereby enabling these units to be sold to the European Community and throughout the world. As announced in January, the Company expected additional orders of approximately \$250,000 during the first half of 2010. This current order has exceeded the Company's expectations and supports the confidence of Behlman's management that this order could mark the beginning of several years of repeat orders for this product.

Mark Tublisky, President of Behlman commented, "Behlman has now established itself as a major power solutions provider supporting two of the largest oil and gas services companies in the industry. The significance of this order is that once a power supply is qualified and proven in the field, it has great potential for continued business through follow-on orders. In addition, we believe this order solidifies Behlman's reputation with this major oil and gas services company as a reliable supplier of power solutions which could lead to additional business opportunities."

Dennis Sunshine, President and Chief Executive Officer of Orbit International Corp. commented, "Our Power Group had a record year of revenue in 2009 and a strong year of bookings even though sales from its commercial division were affected by continued weak economic conditions and its effect on capital spending. We are very encouraged by this new order and the potential of future business that this product may provide. Behlman continues to penetrate new programs and markets and it is once again well positioned for revenue and profitability growth in 2010."

Orbit International Corp. is involved in the manufacture of customized electronic components and subsystems for military and nonmilitary government applications through its production facilities in Hauppauge, New York, and Quakertown, Pennsylvania; and designs and manufactures combat systems and gun weapons systems, provides system integration and integrated logistics support and documentation control at its facilities in Louisville, Kentucky. Its Behlman Electronics, Inc. subsidiary

manufactures and sells high quality commercial power units, AC power sources, frequency converters, uninterruptible power supplies and COTS power solutions.

Certain matters discussed in this news release and oral statements made from time to time by representatives of the Company including, but not limited to, statements regarding any acquisition proposal and/or the potential sale of the Company and whether such proposal or a strategic alternative thereto may be considered or consummated; statements regarding the Company's expectations of its operating plans, deliveries under contracts and strategies generally; statements regarding its expectations of the performance of business; expectations regarding costs and revenues, future operating results, additional orders, future business opportunities and continued growth, may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and the Federal securities laws. Although Orbit believes that the expectations reflected in such forward-looking statements are based upon reasonable assumptions, it can give no assurance that its expectations will be achieved.

Forward-looking information is subject to certain risks, trends and uncertainties that could cause actual results to differ materially from those projected. Many of these factors are beyond Orbit International's ability to control or predict. Important factors that may cause actual results to differ materially and that could impact Orbit International and the statements contained in this news release can be found in Orbit's filings with the Securities and Exchange Commission including quarterly reports on Form 10-Q, current reports on Form 8-K, annual reports on Form 10-K and its other periodic reports. For forward-looking statements in this news release, Orbit claims the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. Orbit assumes no obligation to update or supplement any forward-looking statements whether as a result of new information, future events or otherwise.
