**ORBIT INTERNATIONAL'S POWER GROUP RECEIVES  
NEW ORDERS VALUED IN EXCESS OF \$1,100,000**

Hauppauge, New York, September 30, 2010 - Orbit International Corp. (NASDAQ:ORBT), a defense and industrial electronics manufacturer, systems integrator and software solution provider, today announced that its Power Group, Behlman Electronics, Inc. ("Behlman"), received several new orders in September totaling in excess of \$1,100,000 for its Commercial and COTS Divisions. These awards are in addition to the September 14, 2010 announcement for an award of \$1,742,000 supporting a COTS power supply, used in a U.S. Naval anti-submarine and anti-ship surveillance and targeting system.

These new awards represent follow-on production orders for power supplies for both of Behlman's operating divisions. The Commercial division received orders in excess of \$650,000 for power supplies used in a broad array of applications including oil and gas exploration, railroad signaling and military systems. The awards for the COTS division, totaling in excess of \$450,000, are for power supplies for a major missile defense system as well as for a major display console used by the U.S. Naval fleet. Deliveries under these new contracts are expected to commence in the fourth quarter of 2010 and continue through the fourth quarter of 2011.

Mark Tublisky, President of Behlman commented, "Behlman's ability to operate in both the commercial and military COTS marketplace has been the reason for our continued success during these challenging economic times. Our commitment to provide total power solutions has allowed Behlman to penetrate a number of new markets that have helped fuel our continued sales growth. We believe that both of our operating divisions are currently well positioned to capture new business opportunities and we anticipate strong operating performance for the remainder of the year."

Dennis Sunshine, President and Chief Executive Officer of Orbit International Corp. commented, "We are encouraged with the recent contract awards and the backlog growth in Behlman's two operating divisions. In addition, September has been a very strong month for contract awards for Orbit International Corp. with three of our operating units booking orders in excess of \$1,000,000. This should result in an increase in our reported backlog at quarter end compared to previous quarters and should have a positive impact on our operating performance for the fourth quarter and 2011 as a whole."

(more)

Orbit International Corp. is involved in the manufacture of customized electronic components and subsystems for military and nonmilitary government applications through its production facilities in Hauppauge, New York, and Quakertown, Pennsylvania; and designs and manufactures combat systems and gun weapons systems, provides system integration and integrated logistics support and documentation control at its facilities in Louisville, Kentucky. Its Behlman Electronics, Inc. subsidiary manufactures and sells high quality commercial power units, AC power sources, frequency converters, uninterruptible power supplies and COTS power solutions.
